

Norphonic VoIP panel phone assembly - Berg Handset

- **Excellent sound quality (STI = 0.9)**
- **Robust**

Assembling the Berg handset with a Holme base results in a panel phone which can be used in a wide array of applications. The only requirements are for the panel to be cut-out contour to be as the one shown in the picture below. Please refer to our manual for more assembly details.

The handset consists of a high quality microphone and speaker, designed and tested for rugged environments. The robust handset and armoured cord ensure excellent protection against harsh environments.
